DETAILED OFFICE ACTION

Rejections Under 35 USC 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 24 is rejected under 35 USC 102(e) over Slanina, et al., US Publ. 20040097523, published May 20, 2004. Slanina describes (pages 5-6) the reaction of 6-fluoro-3-(4-piperindinyl)-1,2-benzisoxazole monohydrochloride with risperidone in an aqueous organic solvent. Claim 24 does not require the use of a hydrochloride of risperidone. Thus, claim 24, to the extent that it reads on the use of crude risperidone, is anticipated by Slanina. Cancellation of crude risperidone from the claim would be seen to overcome this rejection.

Objected Claim – Allowable Subject Matter

Claim 25 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowed Claims

Claims 1 and 3-22 are allowed.

A statement of reasons for the indication of allowable subject matter was made of record in the previous Office Action.
